Well-being

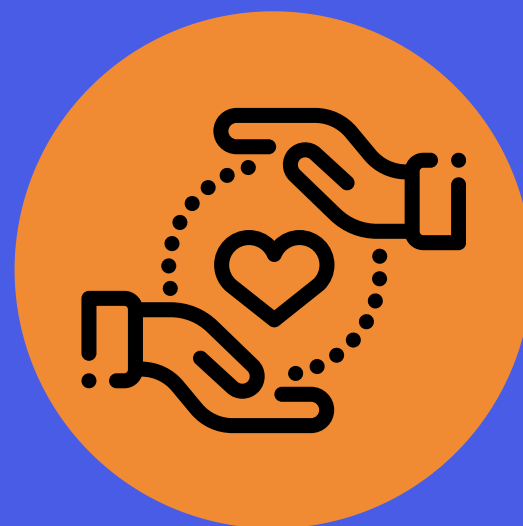

The Well-Being Of The Future Is Not Solely Granted By The New and Disruptive Technologies. It Is Granted By What Lies Behind Them: The Human Factor

— Matteo Penzo, CEO Frontiers Conferences

Well-being Theme: Work+Wellbeing

Make Work From Home Effective:

Organisations use KPI to measure their success. However employees wellbeing has never been recognised as a crucial part of their evaluation at the management Level.

1

General User/Employee:

An All in One Workplace That Cares About Your Wellbeing

It helps to accomplish well-being tasks planned for day, records well-being data during work for reference

2

Team:

A Collaboration Tool For Building Better, Healthier And Thriving Team. As Well As Effective Work Online.

3

Manager: A Management Tool For Managing Different Project At The Same Time.

Well-bean Target Group

Well-bean Design Principals

Calm Technology: Working
From Home During This
Corona Time Calls For A
Different working Paradigm

- 1 Technology Should Inform and Create Calm
- 2 A Person's Primary Task Should not be Computing, but Being Human
- 3 Technology Should Amplify the Best of Technology and the Best of Humanity
- 4 Design for People First
- 5 Technology Should Respect Social Norm and help Individuals to think about their own Well Being
